

# Lone Star™

RETRACTOR SYSTEM

...better than another set of hands™

## Colorectal Kit

Self-retaining retractor system for a wide range of trans-anal surgical procedures

### Benefits

- Essential components for key procedures:
  - LAR/Colo-anal Anastomosis
  - Trans-anal tumor excision
  - Anal Fistula Repair
  - Perineal Proctectomy (for Rectal Prolapse Repair)
  - Sphincteroplasty
  - Hirschsprung's procedures
- Frees up OR personnel to perform other tasks
- Cost effective
- Easy to store, stock, pick and use
- Simplifies surgery
- Provides effective surgical site management with less clutter and better exposure

*The Lone Star Retractor System facilitates surgical access of the anal canal during Hirschsprung's and other colorectal procedures.*

Better for the surgeon.  
 Better for the patient.  
 Better all around.

### Ease and Precision: 3 Simple Steps

1. Place the Retractor Ring around the initial incision. Insert elastic stay hooks in tissue and retract in directly opposing quadrants. Slots on ring allow easy placement for equal and constant tension.

2. As dissection progresses, reposition hooks and add new ones as needed to achieve full, balanced retraction from any angle.

3. When closing, place stays along axis of the incision to create tension to facilitate precise staple or suture placement.

## Lone Star Retractor System™ Colorectal Kit

At last, surgical access the way it should be. Unparalleled exposure. Under your control. This unique retractor system delivers uncluttered access using constant counter-traction with small hooks. The result: a surgical site that you can easily adapt as the procedure progresses.

### Get convenience without added cost!

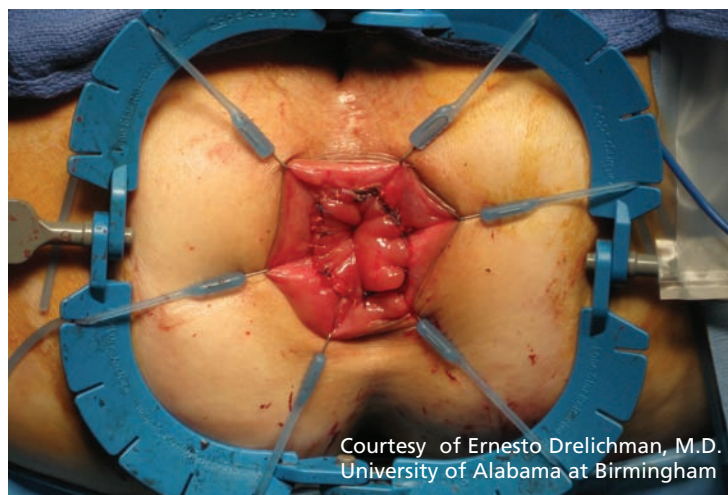

Each kit contains one square disposable retractor ring (14.1 cm x 14.1 cm - Model #3307G) and an eight-pack of 5 mm sharp hook elastic stays (product number 3311-8G) packed in a single-use, sterile dispensing tray.

The cost is the same as if purchased separately, but the convenient packaging facilitates inventory management, making it easy to store, pick and present to the field.

### Ordering Information:
