Care for Health

EDAN

SD5

Features

Advanced communication technology

Wireless transducer via infrared technology offers greater freedom of movement

Convenient remote control probe

Buttons on the probe provide flexible control over the Doppler

Dual high-fidelity speakers

Dual speakers serve mothers with superior sound quality of baby's heart beats

Accurate FHR calculation

Application of autocorrelation algorithm ensures the accuracy of FHR

Built-in audio recorder

Recording of FHR sound provides added reliability to diagnosis

Anti-noise option

Earphone enables you to hear ideal audio FHR sound even in noisy environment

Portable, lightweight design

Unique design is suitable for mobile use

Flexible power supply solutions

Built-in rechargeable battery and AC/DC power supply are all available

Security lock

Security cable lock keeps the Doppler secure wherever you go

SD6

Rolling Stand

Portable

SD5/SD6

Ultrasonic TableTop Doppler

Ultrasonic Tabletop Doppler SD5 and SD6 are the innovative development of Edan's Fetal Doppler category. The advanced infrared transmission technology truly brings freedom to OB clinical applications. Remote control probe and rolling stand serve you with perfectly convenient working environment that enables you to pay full attention to your patients. The SD Series integrates a crystal-clear informative display providing large-font value of FHR with advanced calculation technique to examine early pregnancy that starts from the 10th week.
